## DataCAM – Data Cleanup and Maintenance - Software by PxP

DataCAM is a management tool that integrates with your administration system and supports the good practice requirements of the Pensions Regulator for good record keeping and more.

- Menu driven, simple to use, can be run by an un-skilled user with minimal training.
- Functionality provided to make data clean up a reality.
- Supports common, conditional and numeric data test as required by the Pensions Regulator
- Not just errors in isolation, track what it means to your membership.
- Monitor your data clean up performance.
- Dynamic, tailorable menus with multiple security profiles supported as standard.
- Parameterised settings make it easy for you to decide what's important to your scheme.
- Create your own bespoke reports using PxP's powerful, PxPQueryBuilder distributed with DataCAM.
- Distribute interactive to-do lists to administrators and reports to Trustees.
- You can configure DataCam yourself (moderate skills and training required), or we can set it up for you.

Practise good practice with DataCAM!
